BANC-4-1500

CARACTERÍSTICAS

Chassi

Fabricado com tubo de aço de 1,5 mm de espessura.

Pintados com cor cinza RAL 7035 Microtexturada. Espessura mínima de 50 microns.

Estrutura, tubos para cabides e pés fabricados com tubo de aço de 30 x 30 mm.

Sapateiro fabricado com tubo de aço de 20 x 10 mm.

Grande resistencia e fácil montagem.

Os pés e os tubos para os cabides incluem tampas de PVC.

Pés reguláveis

Ripas

Ripas de madeira de pinheiro (90 mm de largura x 16 mm de espessura) recobertos com verniz de poliuretano, qualidade Flandes V. Madeira procedente de bosques sustentáveis com certificação de cadeia de controlo FSC.

Cabides

Fabricação com zamak (aleação de zinco com alumínio, magnésio e cobre. Tem boa dureza e boa resistência mecânica). Modelo com 3 cabides.
